establishment of laws that provide for the protection of citizens is probably our most serious responsibility, and we are going to need to...to wrestle with exactly what we can do to...that is going to allow for as much personal freedom as possible and yet make sure that people are protected and make sure that we have laws in place, that we are doing our job in making sure that the laws protect citizens. And I believe that the consideration of LB 356 is absolutely necessary. I support the bill and I...and I think that indefinitely postponing it is a very bad idea at this point and I would urge us to take it up and to really think very seriously about what we need to do to make our roads safer. Thank you.
